## PROJECT BACKGROUND AND SITE DETAILS

### 1. PROJECT BACKGROUND (PURPOSE OF THE PROJECT)

To help the country overcome its current shortage of trained pilots, decrease its dependence on foreign training for pilots and also contribute significantly to the growth of aviation in the coming years, TIDCO is planning to enable FTOs to operate from the airstrips at Tamil Nadu where the air traffic and infrastructure are conducive. One of the most conducive site in Tamil Nadu is Kovilpatti, Thoothukudi District due to less air traffic, moderate weather, good visibility.

### 2. SITE DETAILS

The total area of the site is 96 acres. The Kovilpatti airstrip is an unused runway at a distance of about 6 Kms from Kovilpatti town. This is an asphalt topped runway measuring about 1.05 kms in length and 15 metres in width. This airstrip was built by Lakshmi Mills for their private plane on a land area of about 63 Hectares licensed from the Govt of Tamil Nadu in two villages Nalatinputhur and Thonugal.

The runway has suffered normal wear and tear due to weather over the last 20 years since known landing of any airplane. However, there are no vegetation growth on the surface indicating ease of being put to use once again after basic repairs.

This unused airstrip at Kovilpatti can accommodate operations of about more than 10 trainer airplanes due to it being away from air traffic concentrated locations, good connectivity to other parts of the country and availability of a good runway which could be developed.

The map of the site along with the google maps location is shown below:
