1. Conflict of Interest and Corrupt and Fraudulent Practices:

- A. The selected Agency shall not receive any remuneration in connection with the assignment except as provided in the Agreement. The Agency and its affiliates shall not engage in consulting activities that conflict with the interest of the BSDM under the contract. It should be the requirement of the consultancy contract that the Agency should provide professional, objective and impartial advice and at all times hold the BSDM interest paramount, without any consideration for future work, and that in providing advice they avoid conflicts with other assignments and their own corporate interests. Agency shall not be hired for any assignment that would be in conflict with their prior or current obligations to the BSDM, or that may place them in a position of being unable to carry out the assignment in the best interest of the client.
- B. The Agency has an obligation to disclose to BSDM any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Agency or the termination of its Contract.

2. Corrupt and Fraudulent Practices:

BSDM will reject a proposal for award if it determines that the bidder recommended for award, or any of its personnel, or its agents or, vendors and/or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

For the purposes of this provision, the terms are set forth as follows:

- (i) "Corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;
- (ii) "Fraudulent practice" is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
- (iii) "Collusive Practice" is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- (iv) "Coercive Practice" is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
- (v) "Obstructive Practices" is deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to BSDM in order to materially impede an investigation into allegations of a corrupt, fraudulent, collusive or coercive practice; and or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation.

3. Eligibility

It will be the Agency's responsibility to ensure that it meets the eligibility requirement as mentioned in this document.

4. Brief background of BSDM:

In Bihar a comprehensive and long-term strategy for skill development is being developed by the Government of Bihar. Accordingly, the Bihar Skill Development Mission (BSDM) has been constituted under the chairmanship of the Honorable Chief Minister with the vision to increase the capacity & capability of the system to deliver quality skill training and professional knowledge to the youth to enhance their employability and bridge the skill deficit with a view to meet the growing demand for skilled manpower.

Objectives of the Mission:

- To facilitate generation of adequate employment opportunities through a policy frame work.
- To encourage and facilitate skill training for youth of Bihar.
- To monitor generation of employment in different sectors.
- To facilitate launching of training programs for both uneducated and educated unemployed persons for up-gradation of their skills.
- To formulate area and trade specific strategies for maximizing employment opportunities on a sustainable basis in the State supported by private sector.
- To facilitate a coordinated approach in achieving the above objectives for maximizing the benefits over time and space and in reaching out the neediest sections of the population.
- Management of skill development agenda of the State of Bihar.

5. Scope of establishing Migration Counselling –cum-Registration Centre (MCRC)

• Background

Movement of persons from one State to another is voluminous in India due to various factors like lack of employment opportunities in native place, search for better employment opportunities, search for good health and educational facilities or marriage in case of females. The Inter-state Labour mobility averaged 5-6.5 million people between 2001 and 2011, yielding an inter-state migrant population of about 60 million and an inter-district migration as high as 80 million. The Economic Survey of India 2017 estimates that the magnitude of inter-state migration in India was close to 9 million annually between 2011 and 2016, while Census 2011 pegs the total number of internal migrants in the country (accounting for inter- and intra-state movement) at a staggering 139 million. Bihar, along with Uttar Pradesh, is one of the biggest source states.

Within the country, Bihar has a history of large population migrating to other parts of the country/world due to inadequate industries and economic opportunities, high unemployment, frequent floods & draught across the state, possibility of enhancing income etc. Bihar being an agrarian state is worst affected by climatic Disaster like heavy flood in some region of north Bihar and draught in south Bihar. These climatic disasters results in lack of agricultural jobs and low industrial growth with large youth base resulting in distress migration in search of job opportunities.

As per NSSO 64th round data, main reason of male out-migration from Bihar is economic or employment related. Around 30.7 per cent of the total out migrants moved to search an employment, as they were not in employment at the place of origin whereas around 23.8 per cent of entire male out-migrants left their place of origin to get a better employment than their previous employment. Moreover, 34.3 per cent of male out-migrants moved when they got an offer of employment or better employment at place of destination. Also, as per NSSO data, female out- migration is heavily depending upon either the migration of parent or earning member of the family (61.1 per cent) or marriage (29.1 per cent).

• The Objective

Bihar Skill Development Mission in its pursuit of creating an efficient Skills ecosystem has observed that a perennial challenge being faced is the really low percentage of placement opportunities acceptance and eventual retention in the job in spite of placements being the eventual objective of all domain/core skilling endeavors. On account of the limited availability of employment opportunities in the State of Bihar, a lot of the placement opportunities coming up are outside the state and require the skilled candidates to migrate to various outside state location. As observed a major hindrance in accepting such opportunities or continuing in such opportunities for a substantial period of time is the unwillingness of the candidates to migrate on account of various uncertainty factors such as:

- A. Social security
- B. Social acceptance
- C. Livelihood generation
- D. Lack of knowledge of the destinations geographical and demographic fabric
- E. The uncertainty around the possibility of moving families
- F. The fear of exploitation etc.

Thus, a paradoxical situation has arose where the industry complains about there not being enough skilled workforce in-spite of job opportunities being abundant whereas on the supply side there is a rampant rise in post skilling unemployment.

Bihar Skill Development Mission (BSDM), Department of Labour Resources, Government of Bihar in order to mitigate such concerns, bolster and facilitate the candidates to make an informed and supported migration, proposes to set-up Migration Counselling cum Registration Centre (MCRCs) to provide migrants from the state of Bihar to other states and districts, counselling services, identity documentation services, accommodation assistance, better job opportunities, post placement support, healthcare services, social/welfare entitlements, banking services, remittance etc. and function for addressing all such sensitive issues of state migrants on time.

The objective of setting up the MCRCs are as follows:

1. To guide migrants about accommodation and other logistical issues being faced by job aspirants moving from Bihar to other states
2. To inform migrants about Labour laws, social security and entitlement related issues being faced by job aspirants with their respective employers after migrating to destination locations
3. To facilitate migrants in emergency situation and providing remedial support in situations like accidents, casualties etc. at work place through liaison with the local administration of the destination place as well as the Govt. of Bihar.

Though the MCRCs have primarily been envisaged to facilitate the skilled manpower migration but its scope will not be limited to the skilled manpower migration only and will encompass facilitation / support to migrants from all categories of migrants (from Bihar) working age people such as Blue Collared, Grey Collared or even White collared.

• **Key Challenges faced by migrants**

1. The migrants face a large number of challenges at destination due to unknown region and opportunistic indifference treatment at work place and also denial of critical welfare entitlements.
2. Migrant face lot of issues in establishing their identity in the new cities due to lack of verifiable documents/proof. The lack of verifiable proof of identity bars them from accessing basic facilities such as rental accommodation, health services etc. This in many cases leads to harassment at the hands of authorities.

Being new to the cities, migrants suffer from lack of information and struggle to navigate their course in the city. The extended support during the initial period help migrants in settlement in the new environment.

3. Migration destinations are characterized with denial or limited basic services such as shelter, sanitation and access to water. Unsafe working conditions and unhygienic living conditions takes a toll on their health causing occupational health issues.
4. Throughout India internal migration is characterized by poor recruitment practice. Since contractor is involved in most of the recruitment process, migrant worker gets less wages/salary. Also, due to sharing of half/inadequate information by contractors (or sub-contractors) and poor documentation makes it difficult to fix accountability at work place.
5. Job aspirants placed through recruitment drives/job fairs/placement activities in different skilling intervention do not continue for longer period of time with employers outside Bihar due to cultural

shock and initial teething problems during settlements and thus overall conversion ratio from skilled candidates to employed candidates drastically reduces.

6. Migrants limited or lack of access to urban or local Labour markets in the destination city restricts their ability to find suitable jobs in case of loss of job or need for growth in career and income. Moreover, the informal economy thrives on the inability of migrant workers to demand decent work conditions or find other jobs.
7. Personal and professional growth of migrants over a period of time is negatively affected due to their inability to identify or obtain skill up-gradation and thus becomes redundant in the market place. This leads to stagnation in career progression and in many cases further leads to return to native place.
8. Their access to banking and financial services is compromised as they are unable to produce the required proof of identity and residence at a new location.
9. Migrants lose access to basic welfare entitlements such as subsidized food (PDS), health benefits etc. with a change in location. In families moving as a unit, children suffer most as their access to education and basic healthcare is severely affected.
10. The educational standards of most of the migrants are low and earn subsistence wages. As a result they are prone to payment frauds and abuse.
11. They are engaged in risky, hazardous occupations but rarely have access to welfare benefits such as insurance or pension.
12. Several migrants enter the Labour market at an early age (due distress migration) with limited education and Skills. Hard manual Labour for 12-14 hours a day coupled with lack of access to welfare entitlements such as health benefits, subsidized foods etc.
13. Families of migrants which are left-behind faces lot of issues and has to struggle in terms of increased workload and lack of knowledge about government schemes to list a few.
14. The migrant face extreme hardship during transit between the source & destination. There are countless instances of Bihari migrants facing harassment & exploitation at railway stations, where they queue up for space in the general compartments, travel at the mercy of railway officials/police and are robbed of their hard earning while returning home specially during festivals.
